“It's not what happens to you that determines how far you will go in life; it is how you handle what happens to you.”

—Zig Ziglar

One day a farmer's donkey fell into an abandoned well. Terrified, the animal cried for hours as the farmer tried to figure out what to do. Finally, he decided the animal was old and impossible to retrieve. He realized the well needed to be filled to prevent future losses. So he invited all his neighbors to help him.

They all grabbed shovels and began to throw dirt into the well. At first, when the donkey realized he was being buried alive, he cried horribly. Then, to everyone's shock, the donkey quieted down. A few shovel loads later, the farmer looked down the well and was astonished at what he saw. With each shovel of dirt that hit the donkey's back, the donkey would shake it off and take a step up.

As the farmer and his neighbors continued to throw dirt on top of the animal, he would shake it off and take another step up. Soon everyone was amazed as the donkey stepped up over the edge of the well and happily trotted off!

Life is going to throw dirt your way and attempt to bury you. However, no one ever gets out of life's wells by giving up! Shake the dirt off and take a step up!
